

## WEEKLY TRADE REVIEW.

SPECIAL REPORT TO R. G. DUN & CO., OF NEW YORK.

**Interstate Commerce Law Affecting Business Unfavorably—Uncertainty in the Stock Market—Advance in Cotton—Business Failures for the Week.**

New York, March 21.—R. G. Dun & Co.'s weekly review of trade will say: It is becoming more generally realized that the interstate commerce bill is for the time affecting business unfavorably. In some branches, as in the movement of dry goods to the West, a temporary flurry of greater activity results from the desire to transport before the coming change of rates. But in other trades the uncertainty as to future rates produces almost a paralysis, which is rendered more serious in the iron business by the question whether railway building and repairing may not be checked. Many vaguely look for a better understanding of the act when the commissioners are announced, but the commissioners will have to wait the decision of many courts before they can know what powers they have. Hence, it can hardly be hoped that uncertainty regarding the effects of the act will soon be removed.

Probably the great Baltimore & Ohio negotiations which causes hesitation in the stock market, results from the passage of this act. Mr. Sully does not seem to have succeeded, but it is generally believed that some important consolidation of interests may be effected which may have important influence on the future value of securities. Other events have rather favored prices on the whole. European purchases are again of some magnitude, and the danger of monetary pressure this spring seems less, unless it should come through determined effort of individuals, but the state of bank reserves renders such an operation entirely possible. Foreign exchange has declined; lower prices of products help to make exports large, and the Bank of England gains rapidly in specie.

Wheat declined about three cents, but is now recovering. Corn has fallen about one and a half cents; oil has remained without important change, and lard has declined nearly half a cent. Cotton, on the contrary, has advanced to ten cents, with large exports, but it is thought speculative holders have embraced the opportunity to unload. Wheat exports for half of March have been about 5,700,000 bushels, including flour. But with 73,000,000 bushels surplus from the last crop year, the stock in excess of this year's home demand, and 104,000,000 bushels already exported, still is more than 90,000,000 bushels. An advance in wheat rates to eighteen cents from Minneapolis to Chicago, by the Northwestern pool, instead of seven and one-half cents, threatens to affect Chicago markets.

It is now definitely settled that wool, instead of advancing with foreign prices, has been forced down by the dullness in goods. Stocks on hand are ample, and there is no fear of a short clip, but growers still hold expectation of higher prices. No change is noted in woolen goods. Distribution of cottons is more active as the change in freight rates draws near, but prices are only firm, and print clothes decline a shade. A better feeling is noted in boots and shoes, many producers being pressed to meet March deliveries, and the Massachusetts shoe industry is steadily increasing its supply of labor. India rubber advances, with sales of para at eighty-one cents; the demand for goods is excellent in New England, but less satisfactory at the west.

Another bond call is promised but will hardly affect the money market, as only \$3,000,000 bonds have been offered under the open call. Redemption of trade dollars, thus far \$303,983, is far below expectations, indicating that current estimates were exaggerated. Silver receipts at New York rose to 13 per cent. of total custom house receipts, but the government has taken in \$1,700,000 gold and put out \$2,300,000 silver certificates during the past week. The demand for money is active, but the supply adequate at Chicago and St. Louis. Rulings of the new bank examiner occasion some irritation, as a number of banks report less than the required ratio of reserves. It is presumed, however, that the change in the policy of the department will not be so hasty as to create any disturbance.

Business failures for the last seven days for the United States 187, Canada 33, total 220; against 282 last week.

**The Northwestern Floods.**  
BISMARCK, Dak., March 21.—The ice gorge at Washburn, six miles above, has broken and a terrible flood is coming down the Missouri. The ice at Port Buford has gone out with a rise of thirty feet, the highest ever known. Mainland is submerged to the second story windows, and thousands of acres are under water. The flood has already washed away over \$30,000 worth of property and the worst is to come. The Northern Pacific warehouse here has been washed away. Loss \$1,500. The water is now in the second story of houses along the river. Several steamers are frozen in below here and their destruction is inevitable. Some loss of life has occurred and many narrow escapes are reported.

NEW YORK, March 21.—Capt. Toder, of the Italian steamer *Eutela*, was arrested today in Brooklyn for carrying an excess of passengers. He was taken before United States Commissioner Shields and held for examination. The steamer plies between New York and Genoa. She had on board 526 passengers and the law only allowed her 470.

**Girls Must Talk.**  
NEWBURGH, N. Y., March 21.—The proprietor of the Whitney basket works, at Marlborough, recently issued an order forbidding the employees to speak during working hours. This morning twenty girls struck against the order and left work in a body, and will not return until the order is rescinded.

**The Mother of Twins at Eighty.**  
CITY OF MEXICO, March 21.—A letter received from a gentleman in Hotun, Yucatan, tells about an Indian woman named Petrona, Chila, who is eighty years of age, and last week gave birth to twins. This is said to be the most extreme case of the kind on record.

**Burglary at Leesburg.**  
LEESBURG, O., March 21.—Burglars entered the dry goods house of L. F. King and carried off goods to the value of \$100. No clue.

The Cleveland newspapers have distributed a collection of \$2,055 to Capt. Hoehn and \$1,350 to the family of Detective Hurligan, who was killed by the ruffians at Ravenna.

After 11 o'clock the announcement was made that the directors of the Chicago & Northwestern road would declare a semi-annual dividend on the common stock at their April meeting. This imparted a firmer tone to speculation, and on a moderate buying prices advanced 1/4 to 1 per cent. from the bottom figures.

## GOOCH'S MEXICAN SYRUP

OF WILD CHERRY, TAR, GLYCERINE, ETC.  
**WILL CURE CONSUMPTION.**  
It is the best remedy for the cure of all affections of the Throat, Lungs and Chest, such as Consumption, Colds, Coughs, Asthma, Bronchitis, Whooping Cough, Croup, Hoarseness, Spitting of Blood, and all Pulmonary Diseases.

## CONSUMPTION CAN BE CURED!

WE have the gratifying fact to know that it can be cured with GOOCH'S MEXICAN SYRUP. A consumptive is nothing more than a man who is imperfectly organized. Now, if we can procure the organization of this food material so that through the process of electric affinity it may take its place in the system, we can cure the disease. This is just what this Syrup does. It at once stops the progress of the disease by preventing the further supply of tuberculous matter, for while the system is under its influence all nourishment is organized and assimilated. It thus controls Cough, Night sweats, and all other symptoms of Consumption. Consumption is one of the most loathsome and terrible of all diseases, and makes the life of the poor consumptive a hell on earth. Until recently that terrible disease has been considered an affliction beyond the reach of medicine; but a new era in the management of pulmonary diseases seems to be dawning upon the scientific medical world, and since many distinguished physicians have acknowledged that consumption can be cured, few there are who attempt to controvert their opinion. To those singled out as victims to that fatal malady, we offer a remedy sure in its result in bringing back health to their poor weakened frames, and joy to the hearts of their friends.

Consumptives, because all other things fail, believe not that MEXICAN SYRUP will. Not a single sufferer need perish if he or she will take GOOCH'S MEXICAN SYRUP in time. A cough is unlike any other symptom of disease. It stands a conspirator, with threatening vice, menacing the health and existence of a vital organ; so commence at once at the first indication of a cough. TRY IT, you who suffer, are convinced. Do you want to be saved from a consumptive's grave? Then make one more trial. The remedy is in the reach of everybody; it only costs 50 cents a bottle. Is your life not worth 50 cents? No, make one more trial. Is not your life indeed worth one more trial? Test the truth of our words, only by one single bottle; and never give way to despair till you are certain there is no hope. It has cured thousands, and it will cure you. As we would plead with a friend to save him from taking his own life, we plead with you to save yourselves from a premature grave. We positively guarantee a perceptible and continuous improvement when the medicine is faithfully and persistently used.

PREPARED BY THE CINCINNATI DRUG AND CHEMICAL CO., 54 Main St., Cincinnati, Ohio.

FOR SALE BY ALL DRUGGISTS.
